100% Pure Soy Mason Jar Candles

Satisfaction Guaranteed

These pure soy candles are individually hand poured the old fashioned way.

Soy is an all-natural, reduced allergen alternative to paraffin. Soy is ecofriendly and clean burning. Soy burns at a lower temperature.

Therefore, your soy candle will last longer than traditional candles. Soy wax is biodegradable and water soluble. Jars are easy to clean and spills wipe up easily.

Soy is grown in the USA and supports our US farmers.
